

# IAS Yield Trials

Phone: 937-826-3003

7 Plot Ave. Central IN & OH

Web: <http://www.iasyieldtrials.com>

This report spans Central Indiana and Ohio and represents 7 plot locations with a possible 21 replications. All hybrids/varieties being reported are entered into the IAS plot system. Those hybrids/varieties highlighted in green have at least 9 replicates in this report. Also, any of these hybrids/varieties found in the following third party trials, FIRST Trials, OSU Performance Trials, Purdue Performance Trials, and Southwest Corn Growers Trials have also been included in these results. Yields highlighted in red are below average. Relative Normalized Lodging, Moisture, and Yield are calculated using the average lodging, moisture and yield of the plots in the geographic area selected.

Company	Hybrid Name	Traits	Matu	Lodgin	Moistur	Yield	Reps
