

## Dominating Results in Your Fields

Stewart Brand's Dominator Series is a group of the most advanced, proven genetics offering a variety of technology options including Roundup Ready® Corn 2, YieldGard® Corn Borer, YieldGard Rootworm, YieldGard Plus, YieldGard Plus Roundup Ready Corn 2 combination and the new YieldGard VT technology.

### It All Adds Up

Start with the best germplasm from the leading research and development program, selected for our region.

Germplasm, the genetic makeup of corn, is the foundation upon which every yield factor is built. Stalk quality, root strength, dry down, disease resistance and test weight are just a few of the factors that are directly controlled by the germplasm.

Add the new insect and herbicide technologies such as YieldGard VT Technology and/or Roundup Ready to the strong germplasm.

The result: **Dominator Series Corn Products**

The Dominator Series hybrids are selected based on a variety of criteria focused on local and regional performance – those same conditions found on your farm. Consistency, emergence, standability, plant health, and dry-down are among the agronomic qualities evaluated.

To be in the Dominator Series, a hybrid must be...

- 10% or greater yield above the average of all the hybrids in each test
- Above average in top agronomic qualities such as...
  - Stalk strength
  - Root strength
  - Stay green

Not every hybrid makes it to the Dominator Series. When you select a Dominator product for your field, you are choosing a hybrid that makes up less than 5% of all the hybrids tested! Plant one of these Dominator products on your farm and you will see dominating results in your field.

## **Professional Sales Team**

Bringing you these Dominator Series products is your Stewart District Sales Managers. Our sales team knows the growing conditions, soil types, disease and insect pressures which are unique to us in the Eastern Corn Belt. The Stewart sales team can select the highest performing products for your farm.

The Stewart Team is driven by the connections and partnerships created with our customers. Knowing your needs, wants and ambitions help us focus on improving your bottom line. Through advanced training seminars, ongoing education, infield experience and customer experience, they can precisely place the Dominator product on your farm.

## **Bottom Line**

That's what it is all about – your bottom line. Let your Stewart District Sales Manager plant a Dominator Series product on your farm and watch your dollars grow. You will see dominating results in your fields.
